PRODUCT SUPPLY SOLUTIONS

Lowering the Cost of Patient Care

Our Business

PTP Healthcare offers a wide range of patient requisites to suit various budgets.

As current suppliers to the NHS as well as the private sector we pride ourselves on our ability to supply products to this sector on time and to specification – time and time again.

With over 30 years experience of design, development and manufacturing the PTP Healthcare team is committed to providing a range of quality, innovative products which benefit the patients and are 'easy to use' for the healthcare professionals.

In this difficult economic climate, we understand the importance of 'value for money' and we work hard to regularly refresh and engineer our products so that they work efficiently and cost effectively for you.

Ethical trading is at the core of everything we do and we work in partnership with our manufacturers on continuous improvement opportunities.

Our products are safety assessed and meet all applicable regulations. PTP Healthcare is an ISO9001 accredited company.

Innovation

Innovation is an essential side of this division and working together with a number of NHS Trusts and experts in this field, we have developed a wide range of product solutions and concepts that we believe could radically lower costs, improve efficiency and / or better perform in the healthcare sector.

Whilst we have a 'core' range of products, we are always keen to look at ways of improving products – either making them easier to use or lowering cost. We do this through our innovation forums – from ideas discussed at these forums, we have developed many new products including patient gowns, blankets and slipper socks.
